CRANK THIES TO ATTACK WILSON TRIPS TO ROUTE OF THE FIFTH REGIMENT PARADE

The Fifth Regiment parade will start at 9 o'clock tomorrow morning, forming at the Huntington avenue freight yard, marching out to Boylston street and taking the following course:

Boylston, Tremont, Winter, Washington, Milk, Broad, State, Washington, School, Beacon streets and back to the freight yard. There the regiment will separate into companies and proceed by train or otherwise to its different armories.

The line will be reviewed at the State House by Governor McCall and at City Hall by Mayor Curley.

The Fifth Regiment arrives in Boston late today. Colonel Stover and his staff, together with companies from Medford, Woburn, Malden and Charlestown, left on the first section from Albany at 9:10 a. m., followed by the second section at 10:10.

Telegrams received today at the Adjutant-General's office from the colonel state that the men are in good physical condition and eager to get home.

Adjutant-General Pearson's department expects that there will be a parade of the Fifth through Boston streets tomorrow morning. Colonel Willie W. Stover sent his telegram when the first and second sections of the regimental train arrived at Roseland, N. Y., to the effect that the third section was four hours behind, but the first and second sections were held up so long to provision the stock that it was felt that the trailing section might catch up.

HELD FOR \$3,728 MONEY ORDER FRAUD

New Bedford, Oct. 20.—Charles U. Polgar of Oxford, North Fairhaven, a druggist, who, as clerk of a postal substation, is charged with converting to his own use money orders to the value of \$3,727.71, was found guilty yesterday by a federal grand jury. He was ordered held for the United States District Court in Boston.

Polgar was examined through his attorney. He failed to furnish the \$2,000 bond required and was ordered committed to the Bristol County Jail here.

TAYLOR DROWNS AS TUG GOES DOWN

Ernest Taylor of Wellesley was drowned and nine men were rescued when the tug Olympic of the Packard Dredging Company of Provincetown sank in Massachusetts Bay last Tuesday afternoon. Captain Omer Lyons of the schooner Arcturion, which arrived at the Fish Pier today.

SLAVS CAPTURE GERMAN FLYER

Belgrade, Oct. 20.—A German aeroplane was shot down in the neighborhood of Belgrade. The pilot was captured and the machine was destroyed.

HELD ON CHARGE OF POCKET-PICKING

George Walsh was held in \$500 for a hearing October 27 after being arraigned in the Houghton court today on a charge of attempting to pick the pocket of James Barry of Mattapan at Dudley street last night. Barry is grappled with the man and held him till the police came.

LAND MORE ITALIAN TROOPS AT SALONICA

London, Oct. 20.—Another contingent of Italian troops has been landed at Salonica. News of their arrival was received here today. The Italian will at once join the allied armies fighting the Germans and Bulgarians on the Macedonian front.

LIVE WIRE KILLS KING'S FORMER AID

New York, Oct. 20.—Colonel Carroll J. Francouille, formerly aide to King Constantine of Greece, was killed instantly today when he stepped on a live wire.

SHACKLETON GOING TO NEW ORLEANS

Limn, Para, Oct. 20.—Sir Ernest Shackleton, the explorer, has sailed from here for New Orleans.

GRANSCOPES KNEEL IN BAG

By International News Service.
Berlin, via Sayville Wireless, Oct. 20.—The largest part of the German trenches west of the road Eupenort-L'Aubry-lez-Loos, lost to the British on October 18, have been captured in the last twenty-four hours, the German War Office announced today.

A violent attempt by the British to break through the German positions north of Courcellette and east of Lobitz, north of the Somme, were aided by the German machine guns, the statement added.

Three of the new British tanks were broken through by the German heavy guns. The War Office stated that the British tanks were broken through by the German heavy guns. The War Office stated that the British tanks were broken through by the German heavy guns.

NEW GUNS IN HAND.

On the eastern theatre a series of important successes was announced today. The British had captured the German positions north of Courcellette and east of Lobitz, north of the Somme, were aided by the German machine guns, the statement added.

WALPOLE SLEUTH IS REAL CLEVER

Walpole, Oct. 20.—Deputy Sheriff Phineas McNeill traced Jacob M. Solari of Walpole by footprints in the earth and placed him under arrest. Solari pleaded guilty in court here today for the illegal transportation of liquor and stealing cloth from the Falmouth Mills of Walpole. For illegal transportation he was fined \$100 and for stealing he was fined \$100.

T. R.'S SECRETARY GETS NEW TRIAL

New York, Oct. 20.—John McGrath, former private secretary to Colonel Roosevelt, who was convicted of assault in the third degree as the result of a fight with a soldier, was granted a new trial today. McGrath had been sentenced to thirty days, but appealed.

KAISER DECORATES GEN. VON EINEM

By International News Service.
Amsterdam, Oct. 20.—The Kaiser, according to the Koelnsche Zeitung, visited the German front in the Champagne last Wednesday and decorated General von Einem with the Iron Cross of the First Class. The Kaiser, according to the Koelnsche Zeitung, visited the German front in the Champagne last Wednesday and decorated General von Einem with the Iron Cross of the First Class.

Georges

A Man's Personality and Position Are Both Reflected By His Clothes

Men who have arrived at success, or are on the way, favor **GEORGES MODEL SUITS AND TOP COATS**—faithful duplicates of the latest creations of New York's Fifth Avenue style originators.

In every Georges garment there's a sureness of quality and finish that makes a man confident of his appearance and himself.

And this applies to the preference of men of all tastes. There's as much character, for instance, in the conservative three button sack as to the most extreme double breasted Norfolk with loose belt and pinched back effect.

\$15 to \$40

Four great floors, devoted exclusively to the sale of clothes for men and young men, are full to overflowing with a wealth of new clothing ideas. The variety of models and materials is practically without end. If you have in your mind's eye a particular style of material, you'll find it among the vast assortments at Georges, and at the price you desire to pay.

NEW FALL TOPCOATS

Georges style range embraces a variety of models that meet the taste of any man or young man with ideas, from the conservative dark gray Oxford or blacks in either plain or silk-faced, to the smartest Raglans and Box Coats in dark or light colored Tweeds and Knitted Fabrics. Not forgetting the smart, sharply pinched back and belted Coats in blue, green and brown Flannels.

\$15 to \$25

HEAVYWEIGHT OVERCOATS

As usual Georges styles include all the newest fabrics and many models of striking originality—far in advance of the ordinary ready-mades. Fashion advocates in particular the single and double-breasted Ulsters and Ulsterettes with convertible collars. Single and double-breasted, top-ditching coats, entirely plain, pleated or belted backs. Also many full box and Raglan models, short and long, Military Coats and "Chesterfields" for men of quiet tastes.

\$15 to \$60

OPEN SATURDAY TILL 10 P. M.

LODGE IS BARED TO SPEAK BY FITZGERALD

Getting away to a fresh start in his campaign for the United States Senate, John F. Fitzgerald today renewed his invitation to Henry Cabot Lodge to debate the outstanding issues from the same platform.

At the headquarters of the Republican State Committee it was intimated that Lodge would ignore the challenge but Fitzgerald was apparently untroubled.

"Let Mr. Lodge come on the same platform with me and defend his attempt to revive the sectional issue in American politics," said Fitzgerald. "Let him stand upon the same platform in front of the same audience and defend himself at the charge that he represents property rights and not human rights in our government."

FIRST HEART AT LODGE.

"Fitzgerald's letter, which was sent to him yesterday morning for an eight-hour day for delivery," was Fitzgerald's first line at the State of New York. Fitzgerald called attention to the fact that Secretary of War Newton D. Baker, on his recent visit to Boston, said that Lodge's revival of the sectional issue was the "most unfortunate thing that happened in the present campaign."

He said that most surprising for the sake of the State of New York was it to his constituents to justify the principles for which they stand.

At the Fitzgerald headquarters where a new optimism seemed to prevail after the general conference of State and national leaders who agreed that he should remain in the State, it was said that the former Mayor had gotten away to a "fresh start" with Fitzgerald. Fitzgerald will continue tonight with Frederick W. Mansfield and the other members of the State office. He will speak at all the big rallies in the State until election day.

COULD TO SPEAK.

Vice-President Marshall will speak at Springfield September 28 and Senator James, who presided over the Democratic National Convention, will speak next Wednesday night in Boston and London.

Irvin S. Cobb, journalist and war correspondent, who was President Wilson at the big Worcester anti-war convention, will speak at the Worcester anti-war convention, which was one of the thirty prominent anti-war speakers at the Worcester anti-war convention.

With Vice-President Thomas H. Marshall and John James at the head, the Democratic hosts will begin the big drive in Massachusetts next week.

Flirts Annoy West End School Girls

West End school girls are being subjected to such selling and unsolicited conduct on account of lack of school accommodations, according to Philip Davis, of the Civic Service House, at No. 115 Salem street.

Mr. Davis has taken the matter up with the West End School board, after receiving letters complaining of the poor conditions that the 500 girls of the old Bowdoin School have to endure.

The girls have to play games on a narrow hallway, and their recess periods must be spent either in the open or on the street.

The girls are being held on the grounds and are having become convinced that Miss Lillian Tawn, the principal, has had to arrive half an hour before noon to police the girls on the street.

MAN SHOOT INK AT WHITE SHIRTS

The police of the downtown stations are looking for a man who, according to complaints from more than 100 women, has amused himself by squirting ink at their white dresses and shoes, using a water pistol for his weapon.

The man who has invented this new form of outdoor sport takes the hours from 4:30 until 11:30 at night for the time of his operations, the police say. His plan of campaign is to accost himself in some dark doorway. There he waits, pistol charged with ink, in hand, until he sees a white skirt approaching. When the skirt comes

about of his place of concealment he fires. Many women testify that he is an overbearing marksman. After firing the pistol the man darts out and moves to another strategic position, the police say. He aims the main thoroughfare and works in the side streets, where the chances for concealment are good and the number of passersby few.

As a last resort the man will take a shot at a white shirt, the police say, though he prefers big game and much more the inviting target of an immaculate skirt.

The women have not been molested by the man in any other way, according to the stories that have reached the police.

Automobiles Fined.
Twenty-eight automobiles were in the Dorchester court today, charged with violations of the automobile laws. Four were fined \$10 each, seventeen \$5, and seven cases were placed on file.

BRITISH RAID GERMAN TRENCHES

London, Oct. 20.—Two minor raids on German trenches near Loos were reported by the British War Office today.

The statement follows: "Yesterday evening the enemy heavily bombarded the Schweben redoubt. Last night two small raids were carried out against the British trenches in the vicinity of Loos."

Battle on Therna River Still Rages
By International News Service, Sofia, Oct. 20.—The battle which developed between the Serbian and

Bulgarians along the Therna river in Macedonia, is still in progress. The War Office in an official report today said that both the infantry fighting and the artillery duelling were extremely violent. On the Therna river front, the report adds, there is much reconnoitering and big gun duelling.

WARM? WEATHER MAKER SAYS "NO!"

Here's some comfort for you. The Weather Man says today broke no records for heat.

The temperature hovered above the 70 mark, and that's above normal—but not a record.

The humidity was around 80—above normal, but nothing extraordinary. So if you felt red-hot—don't blame the weather. The Weather Man himself says it's not half bad.

And, furthermore, it may be cooler tomorrow.

FRANCE SEEKS A \$100,000,000 LOAN

By International News Service.

New York, Oct. 22.—The Bankers Trust Company, the Guaranty Trust Company and William P. Bonbright & Company, are negotiating with the French government for an acceptance credit, which will amount to between \$20,000,000 and \$100,000,000.

The aggregate is likely to be nearer the latter figure. However, neither the total nor the interest rate has yet been fixed.

A cable is expected hourly from the other side, containing details. Although eleven hour changes are a possibility, the credit will run for eighteen months and will be used solely for exports to France. No limitations are imposed as to the character of the merchandise.

SNOWBALL BATTLE ON MT. GREYLOCK

Pittsfield, Oct. 22.—Snow has fallen on Greylock Mountain to the depth of more than an inch. Miss O. A. Burdett of Boston, secretary of the New England branch of the National Electric Light Association, Miss O. Burdett, secretary of New York branch of the association, L. D. Gibbs of Boston and Brinton Bailey of Worcester motored to the top of the mountain and the party snowballed on the summit.

HAPPENINGS IN BOSTON SOCIETY

An attractive Boston debutante who will make her social bow this season is Miss Priscilla R. Higelow, daughter of the Honorable Lane Higelow of Old Orchard road, Chestnut Hill. Miss Higelow's mother was Mary A. Rice.

An aunt is Mrs. Reginald G. Heath of New York, and her arrangements are Mr. and Mrs. Alanson Higelow of Chestnut Hill. In addition to her new coming out affair, Miss Higelow will assist at a number of similar events this season.

"Compulsory Military Training and its Political Aspects" was the subject of a talk given this morning at the Special Aid Society for American Preparedness Council, No. 213 Boylston street, by William A. Green.

Next Friday at 10:30 a. m. Dr. George M. Shuman, a member of Dr. George's unit, will speak on "The Work of the Harvard Unit in France."

Mr. and Mrs. Alden A. Thorndike have purchased the house, No. 150 Commonwealth avenue. They are still at their Braintree estate but are expected to move in a week or ten.

The debutante daughter of Mrs. Richard C. Nickerson, Mrs. Helen Nickerson, is now making a series of visits in the suburbs. Miss Nickerson will be presented at the Fenway home this Fall and is already a member of the Sewing Circle.

A dinner and dance will be given at the clubhouse of the Norfolk Hunt Club this evening, a breakfast after the fun, from 10:30 to 11:30 a. m. Next morning, breakfast will be served at 10:30 a. m.

Mr. and Mrs. Chesterfield Taylor of Chicago are the guests of Mr. and Mrs. Henry Hendricks Whittier at their North Beverly home. They will remain there until the last of November and later will go to their new winter place in Santa Barbara, California, where the Whitmans are planning to visit them.

The all-the-year-around colony in Concord will welcome this Winter Mr. and Mrs. Samuel Elliot Merriam, who have formerly made their home on Mt. Vernon street, Boston. This real-estate has been leased to John W. Brady of Baltimore and his wife (Dorothy Wendell), whose wedding took place last month in Jamaica.

Palfrey Made Trustee.
Proprietors of the Social Law League, after annual meeting elected John G. Palfrey as trustee in place of Arthur D. Hill of the Harvard Law School, resigned.

German Down Five Planes.
Berlin, Oct. 22.—Five hostile aeroplanes have been shot down in air combats on the Rhine.

Miss Priscilla R. Higelow of Chestnut Hill, prominent among the girls to be brought out this season.

SAXON MONARCH HAS LARGE APPLE CARGO

When the British steamer Saxon Monarch sails she will take the largest single shipment of apples ever sent from Boston to Europe. The shipment, which consists of 20,000 barrels, fills an entire section of the steamer.

BRYAN TAKES WRONG TRAIN; CAN'T SPEAK

Nashville, Tenn., Oct. 22.—William Jennings Bryan made a mistake here and boarded the regular passenger train for Bowling Green, Ky., instead of a special train that would have taken him to Guthrie, Ky. An engagement he had made to speak at Guthrie was thus spoiled.

HUNT MINE HIT BY LINER ALAUNIA

London, Oct. 22.—An investigation was begun today to ascertain if it was a German mine or a derelict British mine that sank the Cunard liner Alaunia in the English Channel yesterday. The four members of the crew who were reported missing have been given up as dead.

The monetary loss is estimated at \$100,000, a large portion of which falls upon American insurance companies.

A number of the 242 passengers who were landed at Plymouth before the ship struck the mine, have sent telegrams to the United States assuring friends and relatives of their safety.

New York, Oct. 22.—That only two of the crew of the Alaunia are missing.

WOEMEN CURFEW TO BE DISCONTINUED

"Care will not ring tonight" is the message from the city of New York. The curfew law, which has been in effect since 1907, will be discontinued tonight.

HUYLER SEEKS TO REMOVE BROTHERS

New York, Oct. 22.—A suit has been filed by David Huyler, one of the surviving sons of John S. Huyler, the candy manufacturer, to remove his two brothers, Frank De K. and Coulter D. Huyler, as trustees under the will of their father, controlling the bulk of the stock in the Huyler corporation, and asks for the appointment of a receiver to hold this stock pending the litigation.

Pay Impressive Funeral Honors To Norman Prince

By International News Service.
Paris, Oct. 19.—Impressive funeral services were held today for Norman Prince, the American aviator, who died as a result of an aerial battle on the western front.

WHEN TROUBLED WITH ECZEMA

Try Cuticura Soap and Ointment.
They Quickly Soothe and Heal.

"I was troubled with eczema which took the form of pimples on my face. The pimples were large, red, and hard, and were in blotches. They itched and burned and I could not sleep, and they disfigured my face for the time being. This trouble lasted three years."

"I tried—and but they did not seem to do any good. I read about Cuticura Soap and Ointment, and I decided to try them. In one week I was greatly relieved, so I bought more, and I was completely healed in one month."

(Signed) Leo Giffin, 51 Cooper St., Boston, Mass., April 21, 1916.
Some think that because Cuticura does such wonderful work in soothing and healing severe itching and burning eczema it is not adapted to the gentle uses of the toilet. On the contrary, that is just where it is most effective. To preserve beautiful complexion and luxuriant hair and to prevent minor skin troubles becoming serious is its real mission. You can have samples by mail for the asking.
Address post-card: "Cuticura, Dept. T, Boston." Sold throughout the world.

GREAT GUN DUEL ON SOMME FRONT

By CHARLES F. BERTELLI,
International News Service Staff Correspondent.

Paris, Oct. 19.—Artillery duels both north and south of the Somme river were reported by the War Office today.

Following the repulse of German counter attacks in the sector of Sailly-lez-Lannoy, the British artillery was active in the region of Sailly-lez-Lannoy and the region of Hainin-lez-Danvers. Rainy, foggy weather is interfering with aerial operations.

"On the Somme there was no infantry action. During the night the artillery battle continued in the sector of Sailly-lez-Lannoy, Hainin-lez-Danvers and Hainin.

"In Lorraine we easily repulsed surprise attacks on small posts in the region of Bessange. The night was calm on the rest of the front."

**Teutons Spread Nets
for Submarines in
North Sea**

Washington, Oct. 19.—Telling a leaf from the book of the British, the Germans have spread nets to catch submarines in the North Sea.

The announcement to this effect came to the State Department from American Consul General Skinner at London.

The Swedish steamer Nomma was caught when her propeller became entangled in one of these nets.

Slavs Gain in Armenia.
Petersburg, Oct. 19.—Further successes for the Russians in Turkish Armenia are reported in an official War Office announcement.

WAR SUMMARY

The fighting on the Somme front continues intense. Attacks and counter-attacks, all pressed home with utmost energy, have followed without intermission for some ten days now. The Germans yielded a few small plots of ground today, but in no case were these in any degree important. Substantially, the hard fighting of the past ten days has accomplished nothing for either side save a heavy loss in men.

On the Transylvanian frontier the lines remain at a standstill. The Rumanians claim minor outpost gains. The Dobruja and Danube fronts are quiet.

Skirmishes on the Serbian and Italian fronts and small German successes against the Russians comprised the only other reported activities of the day.

U.S. May Warn on U-Boat War

By International News Service.

Washington, Oct. 19.—It has been intimated at the State Department that if Germany inaugurates a submarine campaign in close proximity to American waters and its results seriously impair the foreign commerce of the United States, this government may send an identical note to the allied governments and central powers.

The note would inform them that belligerent naval operations in close

proximity to American waters would be considered an unfriendly act by the United States, although such operations would not be an infringement of international law.

A note of this character would have a precedent in the note sent to France during the Franco-Prussian war, when French war vessels hunted off American ports in the Atlantic Ocean, bringing in wait for enemy shipping. The presence of such ships was considered obnoxious by the American government.

Austrian Loss 40,000.
Rome, Oct. 19.—Despite the inclement weather the Italians continue to push their new offensive toward Trieste. It is estimated the Austrians have lost 40,000 men since the offensive began.

SERBS PUSHING ON TO MONASTIR

By International News Service.

Paris, Oct. 19.—Serbian troops that captured Brad, on the Tiberina River, are making a furious drive upon Monastir.

The Bulgarians have been defeated on the plateau of Volosovo, losing 100 prisoners, says a War Office statement on Balkan operations, issued today.

After the capture of Brad the Serbian forces moved northward along the left bank of the Tiberina, giving the Bulgarians before them. A battle was fought on Volosovo plateau, near the village of the same name, in which the Bulgarians were defeated with heavy losses. They retired, leaving their cannons and many munitions behind them.

Heavy bombardments have taken place on the Macedonian front. Brad is twelve miles southeast of Monastir.

8 NEW CARDINALS TO BE CREATED

By International News Service.
Rome, Oct. 19.—Eight of the twelve vacancies in the Sacred College will be filled at the consistory which is expected to be held next month. It was reported in Vatican circles today that no fewer than six would be created by the elevation of Italian cardinals to the Italian majority in the Sacred College will be restored.

Among the prelates to be elevated to the cardinalate is the patriarch of Venice, Don Antonio da Santa Fina.

Kaiser Expects Reichstag Fight

By International News Service.

Paris, Oct. 19.—Chancellor von Bethmann-Hollweg, Minister of Foreign Affairs and Premier of the Reichstag, are conferring with Kaiser Wilhelm at headquarters.

The meeting is believed to fore-shadow a violent attack in the coming Reichstag session on the conduct of Germany's foreign affairs as well as the retirement of Bethmann.

PLAN GREAT DRIVE AGAINST ITALIANS

By International News Service.

Rome, Oct. 19.—Preparations are under way in Vienna for the great Austro-Hungarian offensive that has been launched on the Italian front, where the Italian general staff, under the command of Field Marshal Luigi Cadorna, has been ordered to attack the Italian front.

TWO PINNED UNDER AUTO TWO HOURS

Mountain View, N. H., Oct. 19.—An automobile in which George Stanley of Hollis, Mass., and Ralph Libby of Keener Falls, Mass., were driving through town in Boston turned turtle on a curve and pinned the men under the machine.

Lewis Hattick came along two hours later and dug the men out and they are in the local hospital in a serious condition.

Dewey Defends U-Boat Action

By International News Service.

Washington, Oct. 19.—Admiral George Dewey, president of the navy general board, asked for a reply to the speech of the British foreign secretary, Earl Grey, before the House of Commons, reflecting on the American navy.

The opinion expressed by an admiral and published by the International News Service, covers the matter far better than anything I could say. His words:

"One of our boats was blown to a vessel about to be torpedoed. The

commander told our destroyer commander he was about to torpedo the ship, and, of course, the American boat, naturally and properly and wisely, got out of the way. That was neither collusion nor immorality."

"I endorse every word of that statement. If the American commander had not gotten out of the way it would have been his own fault if he had gotten sunk."

If Workmen Trated Rockefeller as Rockefeller Treats the Public---

What Pitiful Platitude! Scolding We Should Hear--and How Quickly 3. Rockefeller Would Show the Dear Public With Lack Self-Defence Means.

Copyright, 1916, Rockingham

There is a strike on at Bayonne, N. J. The workmen want better pay on better treatment--and DESERVE both.

Mr. Rockefeller does not think they deserve either. The workmen have observed Mr. Rockefeller's increasing gasoline prices, his open and impudent taxation of the public. They have heard a pitiful statement that oil costs more than it used to, and he must charge more for gasoline.

It occurred to them that, as READ and MEAT and SUGAR and RENT and everything else cost more than they used to, they ought to be allowed a little more for the fish and blood and labor that the oil to Mr. Rockefeller.

But Mr. Rockefeller cannot see it that way.

A higher price for oil, says he, justifies, of course, a much higher price for gasoline. But a higher price for food does not seem to justify any higher price for labor--at least there is no hurry about it.

The workmen are told that they may, perhaps, go back to work, but nobody from the Standard Oil will discuss with them any question of increased pay.

Wouldn't it be pleasant for those workmen if they had the power to treat John D. Rockefeller as he has the power to treat the people of the United States?

How different are the humble, dear, foolish people when taxed by Rockefeller compared with Rockefeller when HE is asked to pay more.

The moment Mr. Rockefeller says to the people, "Come on, pay up, the price is higher; you must pay it or go without," the people simply PAY.

When workmen, who made the gasoline, say to Mr. Rockefeller, "We are poor, food is high, we can barely live, give us more," what happens?

The police are called out, men women and children are beaten, a state of war is declared in the town where Mr. Rockefeller makes his money--while he calmly pursues at a distance his game of golf and his sipping of milk and seltzer.

And when it is over, after the men have been shot, and some of their wives and children killed--the men go back to the same low wages and the same hard life.

Suppose the people treated Rockefeller as he treats his workmen.

Suppose that when he put up his little red signs along the road increasing the price of gasoline the police took the side of the people against the extortionist, and suppose Rockefeller were told: "You may continue selling gasoline, but we refuse even to consider paying you a higher price."

What shall arise you would hear from No. 26 Broadway, from Beacon Hills and from dozen corporation lawyers' offices.

How quickly you would find police judges telling the people that they MUST PAY. How quickly you would see the difference between underpaid labor and a man basing on monopoly and criminal combination the extortionate use of power.

How quickly also would Archibald, Rockefeller's wicked partner, go to work with that steady pen of his and his interesting check book.

What interesting letters would be sent from No. 26 Broadway, loaded with checks to the order of Senators "for useful public service, to be spent in their judgment."

But let the people not complain. Mr. Rockefeller has brains--or at least he knows where to hire intelligence. And he understands the power of organization. He and his dollars all work TOGETHER all of the time--always and everywhere.

The people LACK brains. They do not stick together, especially the workers--they NEVER do.

The people do not understand organization. They allow themselves to be robbed by anybody coming enough to corner the oil and gasoline supply and organize taxation without representation.

Rockefeller and his agents UNDERSTAND their problems.

He is able to say to his workmen, "You shall work for the wages that I fix regardless of the price of bread." And to the public he says, with all the authority of the taxing power:

"You shall pay for gasoline, an actual necessity, the price that I demand, regardless of the fact that I have taken more than a thousand millions from you already. And if I do make millions in a single day it is none of your business."

When you deal with a man like that you realize why it is that a poorly organized band of workers, many unable to speak English, are entirely at his mercy.

The intelligence of the people should deal with these monopolists, regulating the amount that they may take from the national wealth, regulating the extent to which they may tax the people, and regulating the extent to which they may exploit labor and disregard the cost of bread.

Stimane on a people that without protest permits itself to be taxed according to the whims of one powerful individual whose taxation runs into tens of millions in a month!

Don't blame Rockefeller, you workers of Bayonne or you heavily taxed gasoline buyers. Blame yourselves.

IS THIS HOW YOU FEEL, ALSO?

Shrewd Precaution

Mr. Wilson is carefully compiling a list of possibly doubtful states so as to make sure that Secretary Daniels shall not be sent into any of them to make speeches.

Letters From American Readers

CLARITY BEGINS AT HOME.

Editor BOSTON AMERICAN:

Dear Sir: Home organizations are being neglected, as the following interesting list shows: The Associated Charities of Boston, the Floating Hospital, the Women's Municipal League of Boston, many settlement houses and others too numerous to mention.

The circulars and petitions for home demands are thrown into the waste basket. The funds for war relief increase by thousands of dollars.

It is right to send so much money abroad when some of it is needed at home just to continue the many good works that have been carried on here for years?

Pitiful stories come to us each day about "our own." This from Oakland, California:

A big case was being packed to be sent abroad; a poor woman came to the store and asked if you have anything that is not good enough to send abroad; could you give the article to the poor of Oakland?

Are not "our own" babies as deserving as the babies abroad? Yet the Floating Hospital asks for help.

The Associated Charities sends out a

Clean Living Means Progress

By Woods Hutchinson, M. D.

The World's Best Known Writer on Medical Subjects

THE high economic value and hygienic steps are even more obvious and unmistakable. Train the swamps and low holes and sewage pools and cesspits and you wipe out not merely typhoid, but yellow fever and malaria as well. Proper disposal of human excreta cuts out hookworm also, and a moderate estimate of the handicap of the past two plagues is 40 to 60 per cent of the entire working power and happiness of the community forfeited by them!

Fight and abolish everything that looks bad, smells bad and tastes bad and you go far to make health contagious. Instead of disease, as Ingersoll used to say.

All Children Should Be Taught to Cultivate a Pleasant Voice

Garrett P. Serviss Says It Would Be Easy to Train Girls and Boys to Speak Well if They Were Not Bothered With Rules, but, Instead, Were Given Good Examples by Their Teachers

By Garrett P. Serviss

IN the matter of education there is nothing more undervalued than the art of using the organs of speech. Dr. C. P. Grayson of Philadelphia is entirely right in urging that voice culture should be a part of the instruction given in elementary schools. The schools teach how to spell and pronounce words, but not how to understand them. To articulate a word is to give forth the sounds composing it in a clear, distinct, distinguishable and agreeable manner. A word not well articulated is a more animal grunt or cry.

A typewriter can conceal bad handwriting, but nothing can disguise a voice. The schools teach how to form letters in writing so that they can be read with ease and certainty, but they do not teach how to utter the sounds of the voice in speaking so that they, too, can be understood with ease and certainty.

The typewriter offers a remedy, or a substitute, for the latter, but there is no mechanical remedy or substitute for a bad voice. The phonograph reproduces only what it hears; if it could automatically replace imperfect sounds by perfect ones a bad speaker might conceal his defects by never appearing in person, just as a modern Florence Greeley using a typewriter may escape the curses, and even the suspicion, of the composing room.

The English language is the best instrument, or medium, for the expression of human thought and emotion that has yet been devised, and a better one may never be devised. The man who can use it effectively has an intellectual asset of incalculable value. But if he cannot utter the words of the language clearly and pleasantly he has only half mastered it, even though he may write it brilliantly.

Foreigners have reason to complain of the harshness of the "American Voice." The writers have had a tremendous "pull" lately; it is the speaker's turn. Their art is the older, and upon the whole, the more important, and it is due to receive careful attention from educators. You need only go to a "recitation" or listen to the talk at an average school assembly of any kind, to realize how far the "American voice" is from the more pleasing and effective voice of the Englishman.

It is a pity that the more cutting detail of this criticism which asserts that "the women's voices are worse than the men's."

The enunciation of words is an

imitative art. The child learns to speak by imitating the sounds it hears from the mouths of its parents and elders. If it hears indistinct sounds it will make indistinct sounds. If you "speak through your nose" the child will do the same thing--unless it is surrounded by better examples to follow. Consequently the education of the voice ought to be begun as soon as the infant begins to speak. The earliest years are those during which the utterances of primary sounds is acquired. Even more important than voice instruction in school is preliminary voice instruction at home. I do not mean deliberate teaching, but the constant playing of good examples before the child. Never let your words fall slovenly from your lips when you address your child, even though it may be merely a baby, capable only of cooing. "Baby talk" to babies is foolish, and worse than foolish, for it sometimes leads to the acquirement by a child of a vague, mauling utterance which remains with it as it grows up.

Children Will Not Learn Rules of Phonetics, but They Do Learn by Example

In the school, especially the primary school, there should be no elaborate system of phonetics taught. Such a thing for young minds is as useless and discouraging as the rules of grammar. Example is the one great teacher, and the pupil should not be told that it is employed as a teacher. One learns to write by reading, and one learns to speak by hearing, and the less appearance of instruction there is in either case the better. Systematic grammar and phonetics are intellectual amusements for mature minds; clear writing and speaking are the results of instinctive imitation of the best by growing minds.

I think that one of the defects of the "modern" and everything has its defects--is that they eliminate the educational influence of the stage upon vocal utterance. How many men and women, how many speakers and orators have found themselves in the presence of a fine example of the voice, and yet, in the very next breath, they have imitated the defects of the speaker.

It has also stimulated improvement of the voice itself. Who that has heard the rich, melodious utterance of some "star" of tragedy or comedy has not found himself afterward paying more attention to his own voice and its possibilities of improvement? The true ought not to be long in coming when it can do no more to aid than there are a hundred Americans who write well as they speak well.

There is something back of the "feeling."

He can be relied upon to do something for the one whose affluence has aroused him.

The sympathy of such a man is true. He not only feels, he acts. Get away from the watery-eyed, spontaneous "and over" of you get away from that meaty-mouthed, mawkish-faced crowd which you stimulate so easily and let the milk of human kindness find expression in real sympathy, real happiness.
